

WorkProud

Employee Engagement

App Features

Timeline

The timeline is where your Company Culture lives and breathes. Employees will see recognition activity for every co-worker and group that they follow. Employees have the ability to quickly add comments and like/share recognition activity.

Notifications

Employees are alerted of recognition activity as it occurs. The notification box on the homepage is collapsible, so employees can view recent or historical notifications when needed.

Events

Celebrate milestones by viewing Birthdays and Service Anniversaries on the Events page for employees who have opted-in to this feature.

Follows

On the Follows page, employees can quickly follow or unfollow co-workers or groups with just a few clicks.

Creating Recognitions

Employees can easily recognize coworkers' success with images, videos, or eCards. Employees can choose to recognize individual employees or groups. Your Company's Core Values can be tied to the recognition.

Public Profile

Each employee and group has a public profile page. Public profile pages displays profile picture, email address, title, list of recognitions received and list of recognitions created by the user.

Manager Tools

With Manager Tools, admins can view an interactive dashboard with utilization data. Admins can also review, approve, or delete recognitions and content that have been flagged by employees.

Limitless Rewards

Managers can attach points to recognitions. Employees can collect points to shop from a nearly Limitless Rewards selection that includes gift cards, electronics, home goods, and much much more.
